

Our Team

SAF Group (“SAF”) is a global alternative investment manager actively deploying and raising capital with a focus on generating above average risk adjusted returns through credit and structured equity investments. Since its formation in 2014, SAF has completed approximately \$4.0 billion in transactions while expanding its reach from Calgary to Vancouver, Toronto, and London. At the center of SAF’s success is a young and dynamic culture with an emphasis on intellectual curiosity, idea generation, and collaboration within a team focused environment. We depend on all our investment professionals to ensure that we are always seeking, identifying, understanding, and capitalizing on opportunities which have the greatest impact on our team, our investors, and our broader communities.

Our Strengths

In addition to an expertise in the natural resources and financial services sectors that drive the Canadian capital markets, SAF has also executed transactions in technology, education, real estate, agriculture and life sciences sectors. SAF’s deep network in global alternative capital markets and strategic partnerships with sophisticated international institutional investors ensures a robust pipeline of proprietary transaction opportunities. With over 50 transactions completed to date, SAF has consistently generated attractive returns across multiple industries and outperformed comparable benchmarks.

SAF believes actively integrating ESG considerations into every level of the investment process has a positive impact on all stakeholders, which ultimately drives positive long-term returns, and therefore incorporates a broad range of ESG factors into both underwriting and portfolio monitoring. With the continuing rise of private debt opportunities and increasing alternative capital pool allocations, SAF’s team is positioned to continue its rapid growth in capital management and deployment.

Our Needs

We are seeking a **Winter Analyst Intern** as a key addition to our investment and portfolio management team. The ideal candidate will be a high energy and self-starting individual with a passion for critical thinking and financial/risk analysis, strong communication skills, attention to detail, and work ethic. The successful candidate will be part of a small and collaborative investment and research team and will support the analysis and decision-making process for a range of new and existing investments plus industry research.

Your Responsibilities

- Draft internal and external memorandum on industry dynamics;
- Maintain industry and investment benchmarking databases;
- Assist in the development and maintenance of portfolio management analytics;
- Develop information memorandums and assist the transaction team with due diligence and analysis; and
- Communicate and interact with SAF counterparties and stakeholders.

Your Qualifications

- Fluent spoken and written English with strong communication and presentation skills;
- Experience in the use of Excel™, PowerPoint™, and Word™;
- Strength in and ability to manage multiple projects and schedules to meet shared team objectives;
- Excellent interpersonal skills and a desire to be a team player in an open office environment; and
- Enrolled in a university degree program in finance/accounting/economics/engineering or other quantitative field.

How to Apply

Please send your cover letter, resume and university transcripts to hr@safgroup.ca indicating the position title (“**Winter Analyst Intern**”) in the subject line. We look forward to introducing you to our team and will contact selected applicants directly.

Application Deadline: September 30, 2022

Start Date: January 2023
