

## Our Team

SAF Group ("SAF") is a global alternative investment manager actively deploying and raising capital with a focus on generating above average risk adjusted returns through credit and structured equity investments. Since its formation in 2014, SAF has completed approximately \$4.0 billion in transactions while expanding its reach from Calgary to Vancouver, Toronto, and London. At the center of SAF's success is a young and dynamic culture with an emphasis on intellectual curiosity, idea generation, and collaboration within a team focused environment. We depend on all our team members to ensure that we are always seeking, identifying, understanding, and capitalizing on opportunities that have the greatest impact on our team, our investors, and our broader communities.

## Our Strengths

In addition to an expertise in the natural resources and financial services sectors that drive the Canadian capital markets, SAF has executed transactions in technology, education, real estate, agriculture, and life sciences sectors. SAF's deep network in global alternative capital markets and strategic partnerships with sophisticated international institutional investors ensures a robust pipeline of proprietary transaction opportunities. With over 50 transactions completed to date, SAF has consistently generated attractive returns across multiple industries and outperformed comparable benchmarks.

SAF believes actively integrating ESG considerations into every level of the investment process has a positive impact on all stakeholders, which ultimately drives positive long-term returns, and therefore incorporates a broad range of ESG factors into both underwriting and portfolio monitoring. With the continuing rise of private debt opportunities and increasing alternative capital pool allocations, SAF's team is positioned to continue its rapid growth in capital management and deployment.

## Our Needs

We are seeking a **Valuations Analyst** as a key addition to our valuations, accounting, and operations team. The ideal candidate will be a high energy, self-starting and curious individual with strong technical abilities, communication skills, attention to detail, and work ethic. The successful candidate will join a growing and collaborative valuations, accounting, and operations team, and support valuations, financial, and investor reporting processes.

## Your Responsibilities

- Create and maintain valuation and reporting models for individual investments as well as the Funds in the aggregate;
- Calculate returns and sensitivities, as necessary, for individual investments and for the Funds in the aggregate;
- Review amendments on a pro-forma basis to individual investments for the potential impact on risk, covenants, and return profile both on an individual basis and for the Funds in the aggregate;
- Prepare valuation memorandums for third-party review;
- Assist the financial reporting team, accounting team and executive team in the creation of board level and valuation committee reporting packages;
- Prepare quarterly investor reporting materials for the Funds in the aggregate;
- Prepare ad hoc cash flow and valuation analyses, as required by the executive team, and communicate findings;
- Complete, support, and review sensitive accounting, calculations, and estimates;
- Liaise with auditors and third-party specialists to support valuations and accounting calculations;
- Calculate and prepare certain billing calculations for external distribution and ensure adherence to contracts;
- Assist the executive, investment and/or operations teams to understand potential accounting policy impacts on investments as well as the Funds in the aggregate.

## Your Qualifications

- Completion of a Bachelors' or Masters' degree; completion of a post-secondary accounting or finance designation preferred;
- 3-5 years of relevant work experience in accounting or finance;

- Fluent spoken and written English with strong communication and presentation skills;
- High proficiency in Excel™, PowerPoint™, and Word™; and
- Excellent interpersonal skills and a desire to be a team player in an open office environment.

## **How to Apply**

Please send your cover letter and resume to [hr@safgroup.ca](mailto:hr@safgroup.ca) indicating the position title (“Valuations Analyst”) in the subject line. We appreciate your interest in this position. Only applicants selected to participate in the interview process will be notified and will be asked to complete a short case study.
